THE ICT ENABLED TOOLS FOR EFFECTIVE TEACHING-LEARNING PROCESS

Integration of ICT in education has become the need of the hour. EJM college strongly believe in combining latest technologies with traditional mode of instruction so as to encourage the holistic growth of the students. College uses Information and Communication Technology (ICT) to aid, enhance and optimize the delivery of education. Few of the ICT tools used by the faculty are projectors, desktop and laptops, printers, photocopier machines, scanners, interactive panel with camera and Bluetooth speaker, smart classrooms and auditorium. Faculty at EJM enthusiastically adopt blended learning platforms like online classes through zoom, google-meet, google classroom, cisco-webex, etc. for effective teaching learning experience. These platforms are used to provide course materials, syllabus, communicate, conduct tests and presentations, upload assignments, address queries and doubts of the students, mentor students besides conducting online classes.

Particulars of ICT enabled Tools	No of tools
Desktop/Laptop	36
Interactive Panel	02
Smart Board cum other smart equipments	02
